

## TIPWeb-IT with RFID (Mobile App for iOS and Android)

Release Notes – Version 1.13

Frontline Education is excited to announce the release of TIPWeb-IT with RFID (version 1.13) for iOS and Android. This latest enhancement gives districts the ability to add charges and payments during the collection process.

### Highlights include:

- Add Charges to Staff and Students after collections
- Adding Payments to Charges

### ADDING CHARGES TO STAFF OR STUDENTS

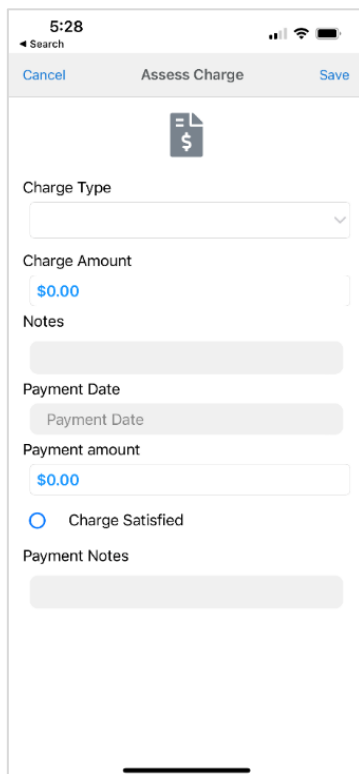

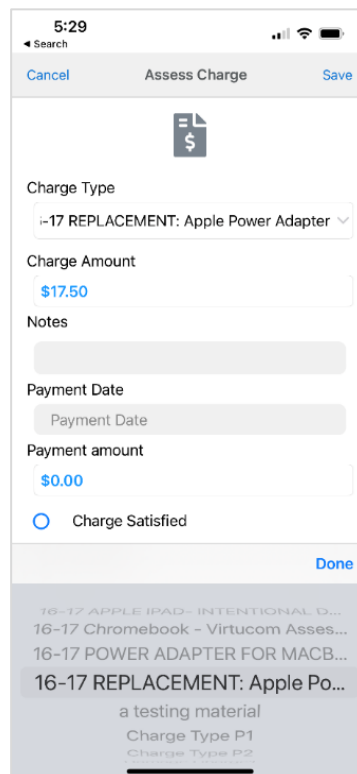

Users will need to be logged into the **TIPWeb-IT with RFID app**.

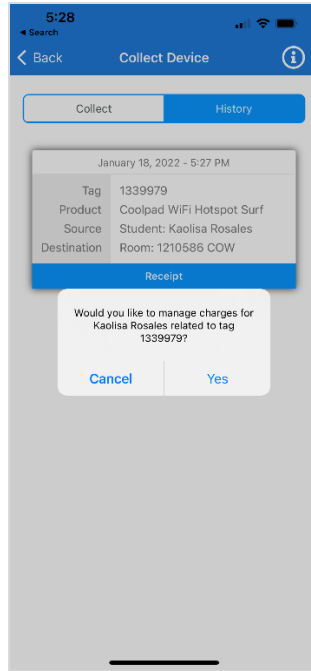

From the home screen, select **Collect Devices**.

### MANAGING A CHARGE

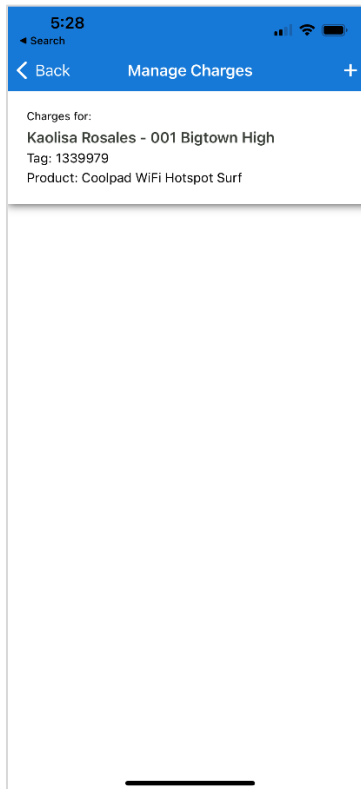

Upon completing the collection process for an asset, the asset will show under the collection history.

- By pressing and holding on the asset card a modal appears to confirm you want to manage charges for that tag.

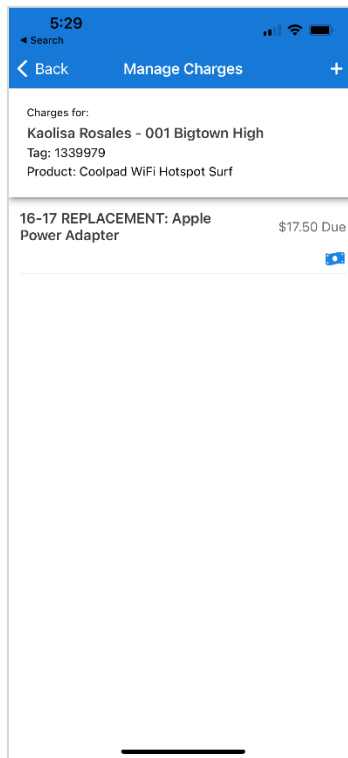

- Once confirmed then you will be able to manage charges of tags that were collected.

- Pressing the add icon will allow you to add a charge and payment. The charge types will be populated from the desktop app.

- Pressing Save will create the Charge for the Staff or Student.

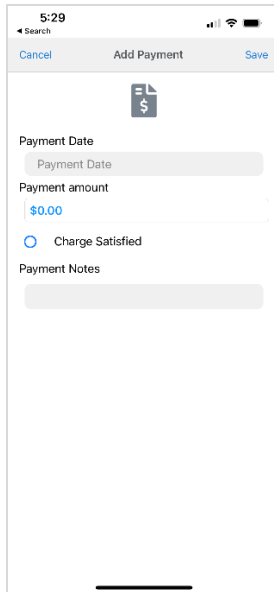

**NOTES:** Charge settings established in the web application that do not allow for the Charge Amount to be changed cannot be changed in mobile app.

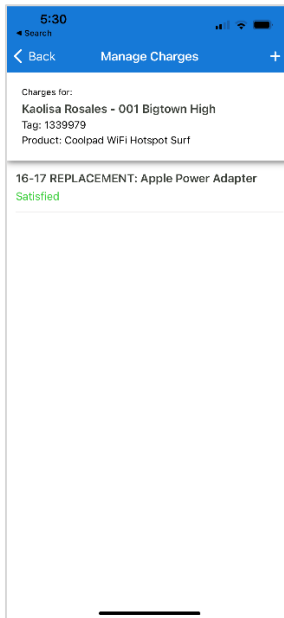

#### ADDING PAYMENTS TO CHARGES

You may add a Payment once a charge has been created by selecting the charge.

- Pressing on an existing charge will open payment page.

- Once a Payment Date and Amount has been entered the Payment can be saved. Once a charge has been satisfied it will show Satisfied

**NOTES:** Charges may have multiple payments applied.

## SYSTEM REQUIREMENTS AND DEVICES

### APPLE

- iOS 13 and 14 for iPhone
- iPadOS 13 and 14 for iPad
